Connection Methods

Connection Method 1: TC-30-T

Take the plastic connector and make sure the snap buttons are in proper position for the frame tube holes. Simply press the snap button with your thumb and carefully slide the tube onto the connector. The snap button should pop through. Some twisting may be necessary to assure the snap button has popped all the way through the tube hole. Do not force the connection and be careful with the tube edges, they may be sharp.

Connection Method 2: TC-30-90T

Take the plastic connector and make sure the snap buttons are in proper position for the frame tube holes. Simply press the snap button with your thumb and carefully slide the tube onto the connector. The snap button should pop through. Some twisting may be necessary to assure the snap button has popped all the way through the tube hole. Do not force the connection and be careful with the tube edges, they may be sharp.

Connection Method 3: TC-30-X

Take the plastic connector and make sure the snap buttons are in proper position for the frame tube holes. Simply press the snap button with your thumb and carefully slide the tube onto the connector. The snap button should pop through. Some twisting may be necessary to assure the snap button has popped all the way through the tube hole. Do not force the connection and be careful with the tube edges, they may be sharp.

Kit Assembly

Step by Step

Step 1.

Gather the tubes and the connecting components to assemble the bottom section of the frame.

Use the Exploded View and the Labeling Diagram for part labels.

Reference Connection Method(s) 1 and 2 for more details.

Step 2.

Gather the tubes and the connecting components to assemble the uprights to the bottom section of the frame.

Use the Exploded View and the Labeling Diagram for part labels.

Reference Connection Method(s) 1 and 3 for more details.

Step 3.

Gather the tubes and the connecting components to assemble the horizontal section of the frame.

Use the Exploded View and the Labeling Diagram for part labels.

Reference Connection Method(s) 1 and 3 for more details.

Step 4.

Gather the tubes and the connecting components to assemble the uprights and the top horizontal section of the frame.

Use the Exploded View and the Labeling Diagram for part labels.

Reference Connection Method(s) 1, 2 and 3 for more details.

Kit Assembly

Step by Step - 10' Frame Option

Step 5.

Lay the frame flat out on the floor. Pull the pillowcase over the top of the frame. Zipper the pillowcase closed at the bottom.

Stand the frame upright.

Step 6.

Setup is complete.
